Royal, Nebraska, May 5, 1944. 62,51

Dear Sir, - I have blooming date
plant records for this part of An-
telope county for any one year 1924
1940. In May 1925 plants bloomed
here as follows: 4 *Juglans nigra*

- 5 *Oxalis stricta*
5 *Fraxinus lanceolata*
8 *Tradescantia*, sp.
9 *Oxytropis lambertii*
9 *Ribes floridum*
10 *Senecio balcanicus*
11 *Capsella bursa-pastoris*
15 *Heuchera hispida*
15 *Lithospermum gmelini*
16 *Lepidium apetalum*
19 *Batrachium trichophyllum*
20 *Rumex salicifolius*
20 *Colomia linearis*, etc. (over)

Ruehler, R. D.
Chief of the Bureau of Plant Industry
U. S. Dept. of Agriculture,
Washington,
D. C.

I will send well-written or carbon-copied lists in either English or Latin for any one year 1924-1940 @ 25¢ each or \$8.50 for all 34 lists, each containing from about 100 to about 300 local plants with what are generally blooming dates upon receipt of cash, U. S. postage stamps, U. S. government purchase order, or equivalent. Please send 25¢ for any plant list for one of the years that you want and I will immediately prepare it and send it to you if I do not have it on hand, but I have all lists in either language from 1937-1941 ready prepared and a good many others. If all 34 lists are wanted for \$8.50 I can get them ready in 14 days or so upon order.

Fresh specimens of any plant on my lists, large enough so as to recognize the plant if one comes across it will be sent at 10¢ each, but give substitutes in case a specimen cannot be found in 1941. Remittance will not be returned unless it amounts to more than a dime. All prices on this card, postpaid. — I hope to hear from you, but if you are not interested I would consider it a favor if you hand this card to a botanist or plant ecologist who maybe. Correspondence and inquiries concerning the local flora and its products from you or anyone in the U. S. A. are always welcome and will be answered gladly, gratis, and freely.

Yours Respectfully,

J. B. E. Wernecke, botanical collector,
Royal, Nebraska.
